GETTING START

WE HAVE NOT DISCOVERED FLEET MANAGEMENT,
BUT WE HAVE DONE IT BETTER.

About Us

CHENZON GPS Delivery Management technology analyses and organizes your fleet to perform at optimum levels. It allows for the attainment of outmost potential for your workforce, this allows for the optimal utilization of your vehicles, providing simple solutions that solve erstwhile complicated and frustrating logistics services, transforming them into a reliable and easy delivery management experience and tool. For all your tracking needs, CHENZON GPS Fleet Management offers the simpler delivery management tools for your transport and logistics operations.

Our slogan defines our honest scope; "We have not discovered fleet management, but we have done it better!" In other words, we try to make a little more comprehensible to the public about what a Fleet Management software is.

Our company was established by experienced IT professionals with expert logistical experience. The culmination of their efforts brought CHENZON into being.

CHENZON is based in Limassol 3075, CYPRUS
CHENZON® EE 38821 α

DASHBOARD

The CHENZON Dashboard is comprised of two main components – the sidebars and the map from which you can view and manage your Drivers and daily delivery and pick-ups. Depending on your membership plan, you will have the ability to add, edit and delete both Drivers and Tasks.

► Sidebars:

- The sidebar, located on the right side of the screen, is where you can view and manage your Drivers in a list view. You can also use the list of Active and Offline users to quick query for Drivers and tasks.
- Assigned and unassigned but also, the completed tasks of the date will appear at the left side of the screen. An option to view past tasks or create a future one is always a fact. You just select the date and voila, done!
- This green color indicator **D** means that this is a Delivery task and the blue color one **P** means that this is a Pick up task.
- The red pin on the task **Assign Driver** means that the Task has not yet been assigned to a Team and Driver.

- The orange pin on the task **assigned** means that the Task has been assigned to a Team and Driver and therefore the appropriate drives can see the task on his/her smartphone.
- The green pin on the task **successful** means that the Task has been completed by Driver; therefore you can click on the **Details** button to see the Task Details and Activity Timeline:
 - **Task Details:** Includes the status of the task, name of the client, the assigned Team and a Tracking Link of your Driver direction where you also can check the feedback left by your client as well.
 - **Activity Timeline:** This is a comprehensive detail Report where you can check the exact time where Driver has **acknowledged** and **started** the Task, when it is set **inprogress** but also the **Signature** of your client. The Driver has the option to take **photo** as a proof of the task completion or in case of a damaged item etc.
- When a Driver is **inprogress** to a given task, you can see his/her **ETA** by referring to the Arriving subject beside their name.

▶ Map:

The Map view allows you to see on-Duty Drivers and Tasks. From your settings, you can enable if you like the system to display even the old Task but also, the offline Drivers.

- CHENZON gives you the option to set even the style of your map based on your brand's color standards. A database of more than 17,000 maps
- Zooming and Centering:
 - By default, the map view will center on the highest concentration of your Drivers and tasks at a given time. You can zoom in and out of the map.
 - You can focus on a certain task or Driver by clicking a task pin or Driver icon on the map (this action can be completed in the sidebar)

▶ Filtering:

- You can filter your view by Date/Time (calendar option), Drivers Status (Offline, Active, Total) and Task Status (unassigned, assigned and completed).

▶ Managing Drivers:

- Drivers are a critical part of any CHENZON-powered company. Through the "CHENZON Android App", they will be able to receive and fulfil delivery and pick-ups tasks in real-time for your clients.

- A name, valid phone number/email, and Team association are required to create a Driver. Driver photo and vehicle details are optional and can be added later or by Driver via the app.
- Once successfully added, new Driver will received an email (prefer on their mobile) with the source file of the app and link to download the "CHENZON Android App" to their Android smartphone.

▶ Creating and Assigning Tasks

- Click the **Add New Task** on the top right corner of your dashboard.
- In the "Task Description" add the details to driver, select if this is a pick up or delivery task and then select the Team that task will be assigned;
- Select the client that this task associated with, details of the tasks (e.g Time, Driven name, addresses) and any related notes;
- You can either assign to a driver directly via this window, or do this later;
- Also, the system can gives you the option to upload tasks from other systems (CSV file).

▶ Make Data-Driven Decisions

- You can extract data from our system by clicking the "Report" option from the menu (you need to be in your settings section ) and setting the parameters you are interested in e.g Time, Team and Driver.

- All the analytics are viewable in graphical form via the dashboard Analyze tab.

QUICK NOTIFICATION PANEL:

In the top right corner we have place three important panels:

-  Displays the remaining task as per your membership plan limits.
-  A quick button to share the app with your drivers for as much times as you like regardless the Drivers limitation of your membership plans.
- and of course the  button.

“

**We will help
make your
deliveries and
pick-ups more
unforgettable.**
